Rare plant stinks up Arboretum

Photos by Chris Bouldin

For about eight hours, Jack permeated the SFA Mast Arboretum, reaching out to Wilson Drive, with the smell of rotting flesh—and the Arboretum staff couldn't be happier about it.

Jack is the first amorphophallus titanium, or giant corpse flower, to bloom in Texas, and one of only about two dozen to bloom in the country since 1937. The plant, which grew at about four inches per day over a few weeks, reached 5 feet, one-half inch tall on its big day, Monday, July 12.

At around 2 p.m. on July 12, Jack began to open its bloom, but the real show didn't start until later that night.

"Around 10 p.m., it started pumping out the gas," Dr. David Creech, director of the SFA Mast Arboretum, said.

The plant's infamous stench, which lasts about eight hours, helps attract pollinators like carrion beetles and sweat bees in the wild.

Giant corpse flowers can reach internal temperatures of five to 20 degrees above ambient temperature, and Creech said when the plant is at its peak for gaseous emissions, it also becomes very warm, which makes it ripe for pollination.

Pollen from a giant corpse flower that recently bloomed at the University of Connecticut arrived on July 12, so Jack had "fresh pollen" to work with.

"We cut a window at the peak of the gas emissions and heat, brushed the pollen of Jack's female parts, played jungle music, danced and sang a 'please, please' song," he said. "We'll wait six months to see if the seeds are viable, but I'm guessing it's not. We hope we can get them to fertilize and set to seed, and if we get seeds, we'll distribute the baby plants to gardens for free. It'll generate goodwill in Southern gardens."

The plant's bloom can last between 18 and 48 hours, and while over 20,000 people came to see the recent Connecticut bloom, Creech said the response at the arboretum was somewhat smaller.

"We almost had a line once," he said. "We've probably had several thousand people over the past couple of days, but that's not a negative thing. This is the first time in the history of the world that there hasn't been a line and the police pushing people through.

"It's so special that people can get up close to it, and they can touch it, smell it and linger to look at it. They can look through the window we cut for the pollination and see the female parts. We can talk about how amazing it is in its rarity and bizarre behavior."

SFA received Jack, then a dormant fist-sized corm, from a tree farm in Florida on June 1, 2000.

"It was an amazing gift to the Arboretum," Creech said. "It's supposed to be pretty much impossible to flower. This usually only happens in the great gardens of the world, and for SFA to join the elite club is pretty amazing."

Giant corpse flowers are found exclusively in the equatorial rainforests of Sumatra and Indonesia. It was discovered in 1878.

"Imagine the Italian botanists who first came across it in the jungles, the 12-foot-tall plant whose stench filled valleys," Creech said. "Tigers were known to stalk them, thinking it was a dead animal."

Creech said he has seen one other giant corpse flower in bloom at the Atlanta Botanical Gardens.

"I saw it when it was past the smell, and there was still a line that you wouldn't believe, about a two-hour wait," he said. "This really is a dream come true—I never knew this would be a benchmark of my career."

Dr. Tito Guerrero

Guerrero still a Lumberjack

Dr. Tito Guerrero stands in front of the Austin Building at the end of Vista Drive. Guerrero wrapped up his third year of presidency at SFA. *Photo by Hardy Meredith.*

Dr. Tito Guerrero III, the Board of Regents and SFA had an eventful and productive year in 2004.

Dr. Guerrero showed his commitment to SFA in March by turning down a chance to be president of New Mexico State University, to remain a Lumberjack. He showed his true colors and displayed them proudly when he began a new tradition of marching from Lumberjack Alley to Homer Bryce Stadium with SFA football fans before home games.

The Board of Regents, led by new chair Fred Wulf, proved themselves to be committed to SFA's continuing face lift and recruitment efforts by approving the construction of a new residence hall and student recreation center and implementing several new marketing tactics.

The student recreation center, approved by a vast majority of students, was happily approved by the Regents who answered the students' call for improvement. The Regents decided to build the rec center where the tennis courts are currently located along Wilson Drive.

The Regents proactively decided to tear down the Units to pave the way for an apartment-style residence hall with an attached parking garage just for students. Finally, the Regents took another step toward the future baseball/softball complex by asking F&S Partners to draw up plans and identify possible locations for the complex.

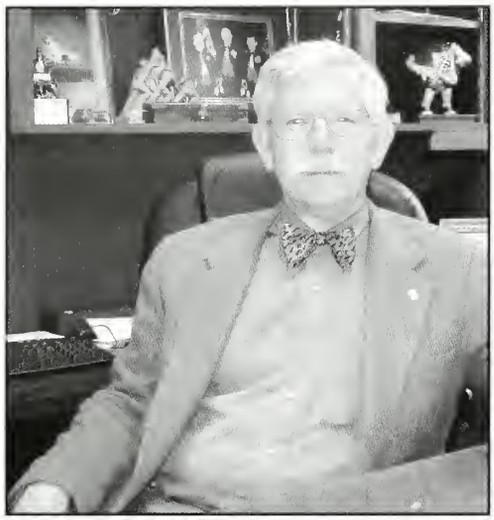

The Regents worked with Stamats, the marketing firm hired to assist the University in creating a better public image and brought forward a series of ideas, suggestions and samples of marketing techniques.

Stamats conducted research on and off campus, questioning current and potential students to get a feel for what sort of student shows interest in SFA. The agency brought forward some sample information brochures and evaluated the SFA Web site in an effort to make it more accessible, and SFA decided to place 30-second television advertisements in Houston, Dallas and East Texas. Finally, the Regents created a director of marketing position to oversee all forms of advertising that go out of the University.

2004 was a year spent on improvements. The University got on the right track with a number of projects and set plans in motion to make SFA a better university for current and potential students alike. Through the leadership of Dr. Guerrero and the Board of Regents, SFA is on its way to another great year.

Allen sophomore wins tuition drawing

Jacque Parker, Allen sophomore, and Miles McCall, SFA vice president for alumni affairs, surprised Parker's mother via cell phone with the announcement that Jacque had won one year's tuition and fees in the SFA Alumni Association's annual tuition drawing.

SFA Alumni Association staff members surprised Parker during her morning geology class with the announcement. The daughter of Larry and Rita Parker, she is a 2003 graduate of Plano East Senior High and an undecided major at SFA.

Winner of the tuition drawing receives funds to cover tuition and fees for 12 credit hours in each the fall and spring semesters for one academic year. The fundraiser generated more that $21,000 this year to benefit the SFA Scholarship Fund that is administered by the SFA Alumni Foundation.

Construction plans to better SFA

For the next few years, SFA will be undergoing many construction projects.

A new student center, parking garage, residence hall and recreation center are all part of the project. The UC Bookstore is also being renovated.

During the Fall 2003 Semester, students voted to go ahead with plans to build a new student center. Of 1,398 votes, 1,126 voted for, 269 voted against and three votes were illegible.

The UC Student Fee increased from $5 per-semester hour for each student to $9 per-semester hour for each student, with a base of $35 and a cap of $85. The construction is expected to take two years for completion.

The new student center is being built where the current UC stands. The area that used to house the post office, SGA offices, student affairs office, Multicultural Center, Student Activities Association, Graphics Shop and the Hungry Jack, will be demolished to make way for the new 90,000-square-foot facility. The center will be three stories tall. The new UC will include student-oriented offices and meeting rooms, as well as a coffee shop, a movie theater and lounge areas.

The UC Bookstore was taken over by Barnes and Noble at the end of the Spring 2004 Semester. Barnes and Noble was chosen because it will improve student life with no cost to the students. The company renovated the entire store with funds independent of the University. A Starbucks Coffee shop will be located inside the store. Barnes and Noble vowed to retain all existing personnel when it made the switch. Student employees of the bookstore can also benefit from advancement opportunities after graduation. The company predicted that textbook prices would fall since students will be taking advantage of Barnes and Noble's extensive used-textbook resources.

Construction of a parking garage began on August 15, 2004, and is expected to be completed during the spring of 2005. The new garage will replace parking space lost during the student center construction, as well as space that will be lost with the closing of Alumni Drive between the Alumni Center and the southern end of the new UC.

The garage will provide event parking for organizational meetings, conferences, banquets, luncheons, workshops, proms and other events hosted by the University. To pay for the garage, daily fees will be charged on an hourly basis. The garage will be equipped with sliders for credit cards and Jack Bucks.

After comparing parking garages at other universities in Texas, the Board of Regents settled on Sam Houston State University's parking garage as a model. SHSU's garage has 450 total spaces available over four floors. Of that number, 100 are available for reservation, leaving 350 unreserved. The reserved spaces sell for $200 per semester. The cost to use the unreserved spaces will be $2 for the first hour and $1 for each additional hour. The maximum fee for an unreserved space is $8 per day. The location for the paring garage is within walking distance and next to the University Center.

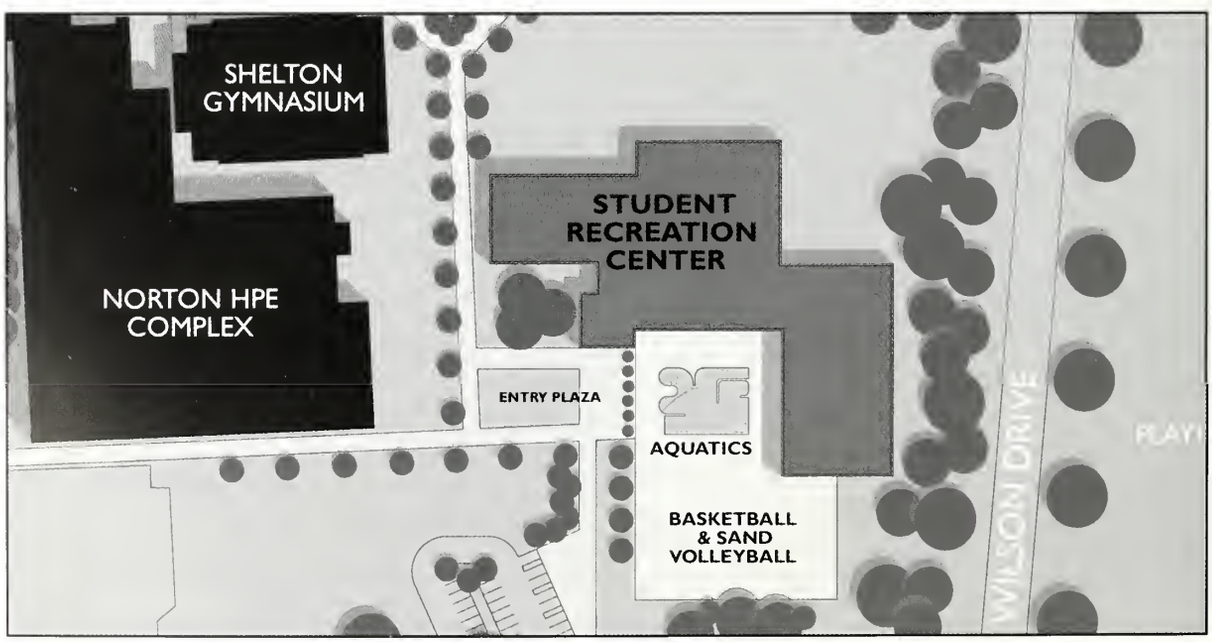

A new apartment-style residence hall is scheduled to be open in January 2006. It will be located on the former site of the Units. The hall will most likely have a mixture of three plans: 1 bedroom, 1 bath; 2 bedroom, 2 bath; and 4 bedroom, 2 bath. Ranging from 349 to 1,006 square feet, the spaces all will include separate living areas. The final designs have not been drawn and could possibly change.

In the fall of 2004, students voted to construct a new recreation center on the site of the current tennis courts. Construction is estimated to take 18 months, and the facility will open in July 2007. It will be approximately 75,000 square feet with additional outdoor space.

The recreation center will offer large cardiac fitness areas, large weight areas, an indoor elevated walking/jogging track, aerobics/dance rooms, a climbing rock, leisure pool and spas, glass-backed racquetball courts, an outdoor adventure center, wood-floor basketball courts, a membership services area, lounge and food service areas, outdoor sand volleyball courts, outdoor basketball courts, outdoor picnic areas, locker rooms, new parking, early-morning/late-night hours and student employment opportunities.

All of the existing trees on the site will be left, and any that have to be moved will be replanted.

A picture perfect

The former Zeta Beta Tau house has become the setting for Greg Patterson's new studio gallery, "Patterson: Photographic Studio and Gallery," which opened Saturday, April 3, 2004.

Patterson, who started his business in 1991, has taught photography courses to communication college students since 1995. His new studio offers a gallery of portraits and specializes in family, high school, children and business portraits. Patterson also specializes in wedding photography but does not offer it at his new studio.

Patterson was in search of a larger space to house his portrait business.

"I came (to the house) with my wife last year, and we were looking for a new house with property," Patterson said. "We both had the same reaction. This is an incredible house. We looked beyond the work and saw the potential and felt the house could be brought back to life."

Patterson said the new studio will benefit his business in many ways his previous locations did not. The new building has more storage space and plenty of room for his business to grow, Patterson said.

"The other studio had one door and no windows," he said. "This studio has tons of windows for natural light, 11-foot ceilings and hardwood floors, and there are many rooms for more people to visit. Also there is more land for landscape."

Patterson said restoring the 1989 house located at 1221 Mound St. has been a family affair.

"We never realized it would be a lot of work," he said. "The whole family has been involved with the whole restoration project, and we have been working on this house for over two months."

Patterson said he is thrilled to restore and own the house.

"It's neat to walk through and be like 'wow I can't believe this is our house'," Patterson said. "We're blessed with the opportunity to restore this house and use it for our business."

However, in February 2004, when they were in the process of moving, the house was robbed. Patterson had gone to work on the house early in the morning. He saw the back door had been left open and realized he had been robbed.

"It happened on a Saturday night, and we believe the burglars had been watching us work on the house earlier," Patterson said. "I was just thankful we didn't have more here."

An estimated $2,000 to $3,000 worth of rental equipment and tools was taken. Patterson then took extra security measures to assure a robbery would not happen again.

Despite the obstacle, Patterson is thrilled about the new gallery/studio. He said he believes none of this would have happened without the help of his family.

"This house is a historic landmark to Nacogdoches," Patterson said. "There is so much charm that makes the house stand out as being special. I am not a very prideful person, but there is a sense of pride to see the transformation of the house with the help of my family."

Tkacik travels to Slovak Republic

Dr. Michael Tkacik says he'd do it all again, if he got the chance.

Tkacik, an SFA assistant professor of political science, spent Spring 2004 on a Fulbright Scholarship in Slovakia, teaching classes in American foreign policy and American government at University of St. Cyril and Methodius in Trnava.

Since 1946, the Fulbright program has sent hundreds of professors across the world every year to teach, research and study.

Tkacik said three things made the Fulbright program attractive.

"It provided an opportunity for me to get overseas," he said. "As someone who teaches about international politics, it is important for me to do more than read about things in a book. It's important to see things for myself."

Tkacik said the international appeal of the program was another attractor for him.

"The Fulbright is one of the few academic honors that is recognized in the real world," he said. "My mother understands that Fulbright is a good thing!"

Tkacik said the third thing that drew him to the program was the help of Dr. Tom Segady, an SFA sociology professor who completed a Fulbright in India in 2001.

"It's always easier to embark on an endeavor such as the Fulbright when someone helps you navigate the process," Tkacik said.

Tkacik said he had about 25 to 30 students in each class, and his students weren't too different from those at SFA.

"Some students were terrific, some didn't care," he said. "Everyone needed a little motivation. I guess 20-year-olds are pretty much the same here as there."

He said his students were surprised when he wanted them to participate in class.

"Teaching in the former Communist states is still strict lecture," he said. "Most students preferred my method, though some never came around, mostly due to language issues."

He said many of his students were curious about America.

"Politically speaking, most students and not a few faculty were distressed by American unilateralism in world affairs," he said. "They were also very interested in whether I thought President Bush would be re-elected. Beyond politics, people wanted to know what daily life was like in America. When they saw pictures of SFA, they were stunned almost into silence by the beauty of our campus."

Supplies were in short supply for Tkacik's "Spartan" classroom.

"I had one piece of square chalk, a blackboard and a rag to erase the board," he said. "My department here at SFA was kind enough to send some supplies over, and I left these with the department in Slovakia."

Tkacik said the most challenging thing about his experience was being away from everything he considered normal.

"You miss small things like your own bed, a good cheeseburger and being able to speak to someone in English," he said.

Tkacik, his wife Theresa and their daughter Paulina lived in a two-bedroom, one bathroom apartment on the fifth floor of a "typical Stalinist apartment" in Trnava.

"It wasn't much to look at from the outside, but it was warm on the inside," he said. "We also had a small balcony overlooking the old town – very beautiful. It served its purpose."

Tkacik said a large, older nuclear power plant about six miles away from the edge of town gave him pause, but other than that, he didn't have any anxieties about living overseas.

"I'm more concerned about terrorism when I visit Houston than when I was in Slovakia," he said.

Story by Jamie Fussell

Music with a Latin flair

The faculty of SFA is made up of many accomplished and well-traveled scholars, many of whom have made a name for themselves both inside and outside of academia.

Department of modern languages husband-and-wife teaching duo Juan Carlos and Jeana Paul Urena have quite a reputation in the world of music, performing and recording music together for several years before moving to East Texas.

The couple brings a unique Latin flavor to the local musical scene, which is growing more diverse with time. The Urenas both say they have a common goal of making the world a more positive, better place with their music. The Urenas' lyrics consist of messages about human rights, social justice and the ecology.

Their music is influenced not only by Latin rhythms but also by music from the United States and Brazil. Their sound is a blend of the rhythms of Central America, as well as North American folk melodies, and features the pair's harmonies and skilled musicianship, with Juan Carlos' guitar playing and Jeana Paul's mandolin. They have lived and worked all over the world, which has enhanced the diversity of their music. Juan Carlos, a native Costa Rican, began playing music as a child. He later founded Ovejda Negra, which would become one of Costa Rica's most well-known bands. He met Jeana Paul in 1994 when she began working with him on researching contemporary women novelists in Central American.

Since moving to East Texas to teach at SFA, the pair has performed in area music festivals and on local NPR affiliate Red River Radio. The Urenas have several recordings to their credit, including "De Costa Rica," their most recent album, which features the pair performing with members of the Costa Rican group Cantoamerica.

According to Juan Carlos, music is a great teaching tool in the language classroom, and he encourages his students to listen to music in Spanish, as well as using music in the classroom to teach language and culture.

The Urenas' approach to education and their well-traveled background make them a welcome addition to the SFA faculty.

SFA loses institutional treasure

Dr. William J. Brophy, who served the University since 1964 in a wide array of roles ranging from history instructor to interim president, died September 21, 2004. He was 67.

At the beginning of the 1991 Spring Semester, the campus community learned that Brophy had been named interim president after the Board of Regents fired Dr. Donald Bowen, SFA's fifth president.

Brophy's announced goal for the institution was to keep the University on a steady course and moving forward while a national search was underway to replace Bowen.

In his first meeting with the board in January, Brophy unveiled an ambitious plan to create an Academic Excellence Living Center in one residence hall and an Academic Enrichment Living Center in another, both designed to increase student retention and to showcase academic achievement. It was the first indication that Brophy's would not be a creator president.

The idea of creating residence halls to assist students in meeting their academic challenges was conceived by Brophy, who he secure state funding for part of the program.

His enrichment concept included a hall that had limited visitation hours and mandatory study time to encourage and foster academic success. It also included tutoring help for students who needed assistance in subject areas such as English, mathematics, history, political science and the sciences.

The concept has stood the test of time, and last year, the grade point average of men living in the enrichment hall was the second highest on campus, exceeded only by the GPA of men in the academic excellence hall.

When he stepped down as interim president, Brophy became advisor of the enrichment center on a part-time basis, while continuing to teach history part-time.

Also during his interim presidency Brophy created SFA's Multicultural Center, reflecting a lifelong interest in civil rights and equality issues, and served a the University's Title VI coordinator, overseeing the progress by the institution in complying with desegregation goals.

An SFA faculty member since 1964, Brophy became chairman of the Department of History in 1977. In 1984 he became associate vice president for academic affairs, was interim vice president for academic affairs in 1985-86 and as appointed dean of liberal arts in 1986.

Throughout his career, he imparted his enthusiasm and love of history to his students from beginning freshman to graduate students.

at home on campus

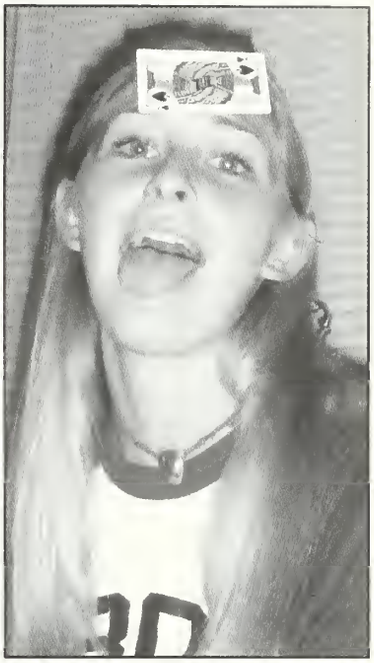

dorm life

SFA offers 14 on-campus residential halls that are tailored to meet specific student needs. Living in a dorm can be a fun and exciting experience. For some people, it takes awhile getting used to sharing a room and bathroom, but most students seem to adjust quickly.

Residents can enjoy the luxury of a full-cooked meal in any of the five eateries on campus with only the swipe of their student ID card. Some dorms give access to community kitchens, which allow students to cook their own food or enjoy a midnight snack.

Dorm life is a memorable part of every freshman's college experience.

lumberjack training

jack camp

During each summer, many incoming freshmen take part in their first SFA tradition, Jack Camp. After arriving at camp, students become part of many groups—cabin groups, family groups, tribes and teams. The days at Jack Camp consist of campers taking part in competitions as well as meeting fellow Lumberjacks and student leaders around campus.

Jack Camp also introduces freshmen to their first taste of college life. Topics such as getting to know your roommate, taking part in Lumberjack traditions and getting around campus are discussed during camp.

This one-time experience gives students a chance to build strong relationships with the people they will be graduating with in four years. Some people meet their best friends at Jack Camp, and others meet their future roommate.

Jack Camp is an unforgettable experience where freshmen learn to be students, friends, and more importantly, Lumberjacks.

Jack Camp

enduring pride
lumberjack spirit

"When you drive down the street and see another vechicle boasting an SFA decal, it creates a rare state of pride that only true Lumberjacks can understand."
-Joe Walker, SGA

Lumberjacks have a certain pride that takes over the town. Everywhere you go, students and community members show off their purple and white. At sporting events, Lumberjack spirit erupts through out the crowd, pushing our athletes to victory over the opponent.

On any given football game-day, hundreds of Jacks gather at Lumberjack Alley to tailgate with friends before the game. They enjoy free food, beer and prizes. During the game, a mass of purple makes up the Purple Haze section. These fans sit behind the opposing team and lead cheers for the Jacks.

Whether it is a bumper sticker, a T-shirt or our purple and white, Lumberjacks bond together through school spirit.

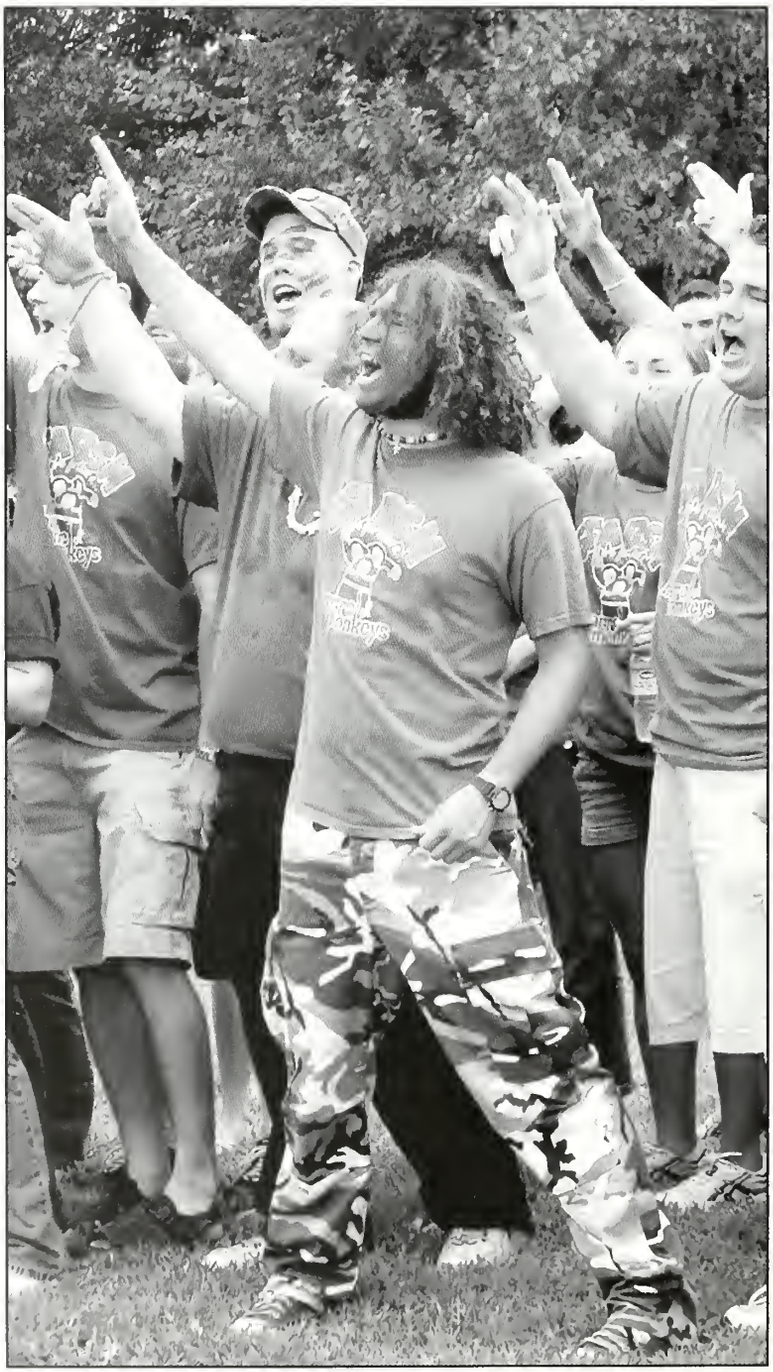

(Above) Chi Omega sisters decorate themselves in support of the Lumberjacks at Lumberjack Alley.

visit from the 'rents

parents day

Parents Day is an annual event that brings family and friends to SFA in order to share a day in the life of their favorite lumberjack(s).

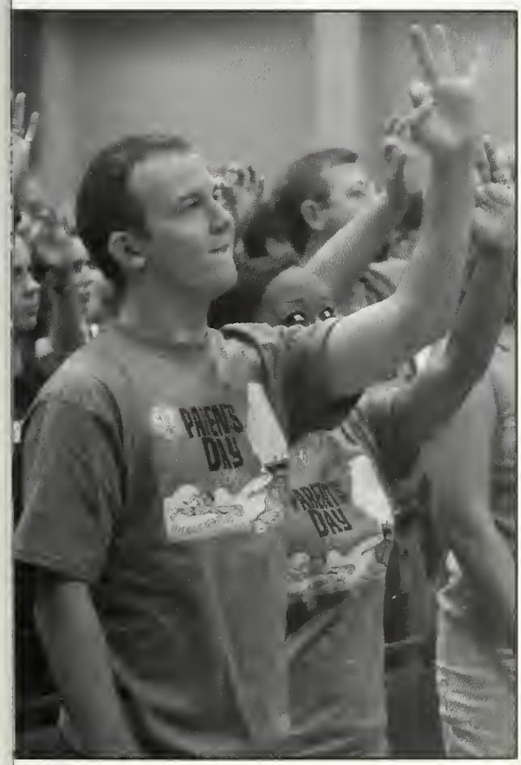

This year was the 30th anniversary of Parents Day and according to a representative from RHA, 2,050 people attended the event.

The mom and daughter pair of Stephanie and Shela Dale is an example of a typical Parents Day experience. They spent the day walking around campus, laughing and witnessing the experiences of other Parents Day participants.

"We had a lot of fun in front of Kerr Hall, that's where I live," said Stephanie Dale, vocal performance major from Trinity. "My mom is crazy...we are best friends. She came up on Saturday and stayed the night. We reorganized my room, ate at the UC and went to a downstage production on campus."

midnight mardi gras

Midnight Mardi Gras is a kick-off celebration for the Lumberjack and Ladyjack basketball seasons. Students, community members, faculty and staff show their purple pride in the gym starting at 11 p.m. This year, celebrities who have been seen in Nike commercials and in other street ball activites entertained the crowd. Project Playground involved the crowd, cheerleaders and basketball players in their activities. Beads, T-shirts and money were thrown out to the crowd. Students also won money by participating in games. A game of knock-out gave on-campus organizations the opportunity to receive $500. Midnight Mardi Gras is a fun and exciting way to start the SFA basketball season.

battleground election

presidential election 2004

Nacogdoches County had 67 percent of eligible voters turn out to vote the 2004 year election, Debra Gaston, Nacogdoches County election administrator, said.

With 99 percent of precincts reporting, President George W. Bush carried Texas with 61 percent and 4,495,797 votes, on his way to re-election. Sen. John F. Kerry had 38 percent and 2,816,501 votes.

Gaston said 12,000 people voted early in Nacogdoches County, and 9,400 voted on election day. She said she did not know how that compared to 2000, but that it was higher than the state's pre-election prediction of 52 percent.

Gaston also said she was pleased with the turnout, and she had ordered enough ballots to accommodate a 75 percent turnout in each precinct, but even that wasn't enough.

"There were a few precincts that ran out of ballots," she said.

Gaston said there was a voting inspector from Austin present to ensure the process went smoothly.

"We requested an inspector," Gaston said. "They're mostly reviewing voting processes, that we are in compliance. In fact she came to the (Nacogdoches County Courthouse) annex after the polls closed and was very complimentary of Election Day, and said she felt so good about everything and she was pleased with what she saw."

On Nov. 1, 2004, a part of the annex roof fell in, which Gaston said was because of an accumulation of debris. She said it was fixed immediately, and ballots from early voting were not affected.

"All of the ballots are left in a double-locked room, and they weren't anywhere close," she said.

Gaston said that the fire station on North Street was the busiest precinct. It was also where many SFA students went to vote. Laura Tidwell, Atlanta, Texas, sophomore, said she was waiting in the long line to make sure her voice was heard.

"I think it's really important to vote, and I want to make sure my vote is heard," she said.

Tidwell said she was voting for Bush because they share the same values. "I'm voting for Bush because I'm a Christian person, and I just feel like he has more Christian values," Tidwell said.

Kevin York, Eagle Lake freshman, was voting for the same reasons, but for Kerry. "I'm really passionate about my candidate," he said. "We have some of the same beliefs and values, and I didn't like Bush when he was governor. We need some new leadership."

Peyton Sykes, Jasper freshman, was waiting in line but didn't think his vote would make much difference. "I was saying earlier how our vote doesn't matter, because some guy in a suit is going to decide it anyway," he said.

He said he was voting for Bush all the same.

"I think he started a good job, and we need somebody that's going to finish it," Sykes said.

Nikki Anthony, Tyler junior, was frustrated with the long line. She was only halfway through the line but said she had been there an hour.

"I had no idea," she said. "I'd set apart an hour thinking that I would get in and out in an hour, but apparently not."

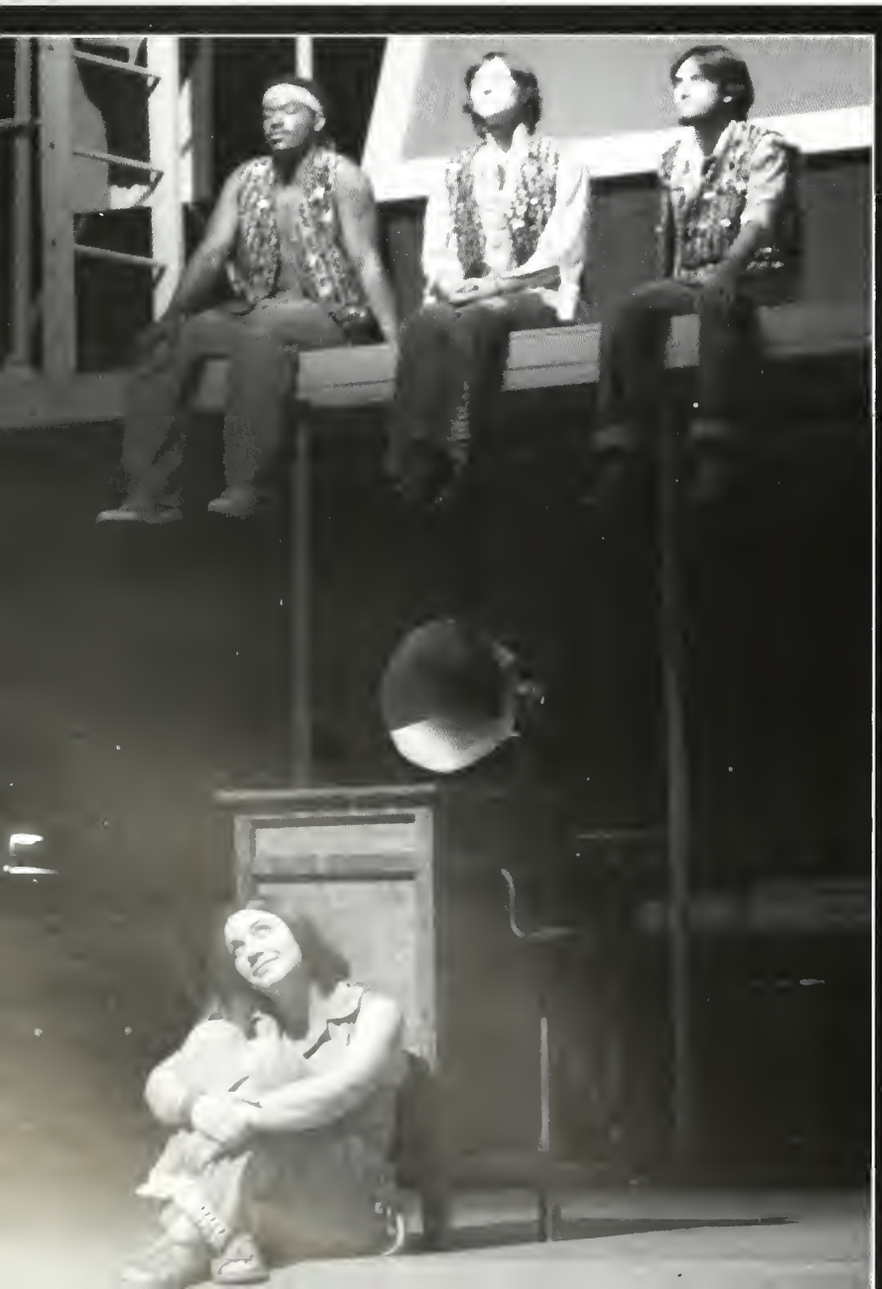

She said she hoped to be done in time for play rehearsal in 15 minutes, but in reality thought it would take her about 30 minutes. Elizabeth Davis, Wylie freshman, was near the front of the line but said it had taken her a little more than an hour to get there. She said she was voting for Kerry.

"I'm voting Democratic because if you want to save America, you need to vote Democratic," she said. "We've lost so much focus on America and we're heading for so much turmoil. I can feel it."

Vintage Costume has ties to SFA, The Pine Log

"hair"

The military uniform used in the SFA Theatre Department's fall production of "Hair" had a special connection for both SFA and The Pine Log.

Donald Candler, a former editor of The Pine Log who was killed during the Vietnam War shortly after his graduation from SFA, wore the uniform that the character of "Claude" wears toward the end of the musical.

The uniform was donated to the SFA Alumni Association by Candler's parents, Edward and Louise Candler of Temple, after his death, and was then given to the theatre department.

"We get lots of donations, and we love it," Angela Bacarisee, assistant professor of theatre, said. This one has significance because it was used by an SFA student who died in Vietnam. If I can impress upon students that it was the outfit of someone real who had emotions and blood, it has more impact on them."

Bacarisse said Devin Collins, the University City sophomore who played "Claude," wore the uniform's pants and jacket in the play, but the uniform's shirt had been substituted for a similar shirt because she didn't want to alter parts of the ensemble.

Betty Ford, assistant to the director of the Alumni Association, said Candler's family also endowed a scholarship in his name in 1970 that is given to a staff writer of The Pine Log.

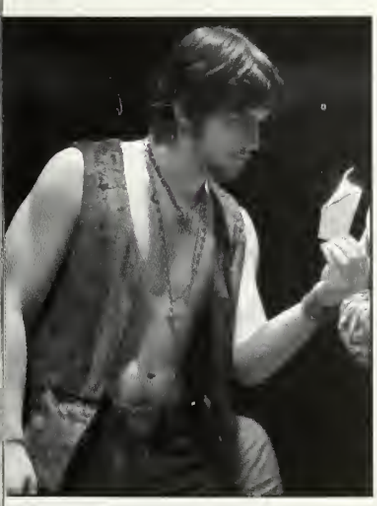

Nothing would thrill his family more than to know he's being remembered," Ford said. Candler's father is deceased, and his mother lives in a nursing home.

Candler enlisted in the Army after his graduation in 1968, became a second lieutenant and was killed northwest of Quang Ngai in Vietnam in 1969. He was awarded the Silver Star, the Bronze Star Medal and the Purple Heart posthumously, which were given to his parents in a ceremony at Fort Hood.

Bacarisse said she uses pieces of clothing given to the department to teach students about historical techniques. Bacarisee teaches costume technology, design and history of clothing.

the party never ends... at SFA

night life

After a full day of attending classes and working, SFA students take a break from their studious mind set to enjoy the nightlife of Nacogdoches.

It does not matter where they go—The Anex, Jitterbugs, Sports Shack, Bullfrogs, Ritas or The Lumberyard—SFA students are bound to have a good time.

Some of the activities that make up a night life of an SFA student include playing pool, watching a sporting event, having a couple of drinks, enjoying a live band, dancing and hanging out with friends.

The clubs and bars may close at midnight on Thursdays and Fridays, and at 1 a.m. on Saturdays, but that does not mean that the night is over.

No matter how small Nacogdoches is, there is always a place to party.

From hanging out at the house to frat parties, SFA students live for the after-party.

It is always important to remember the law. All of the nightclubs, bars and restaurants in Nacogdoches are very strict about underage drinking.

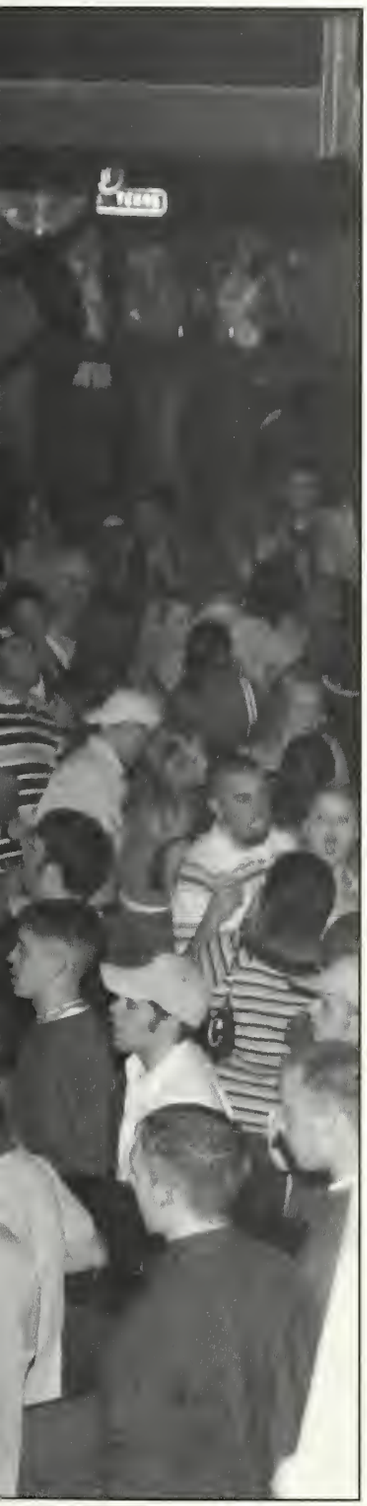

(Opposite Page) Students gather on a Thursday night at The Anex to drink, dance, play pool and have fun.

the big day
graduation

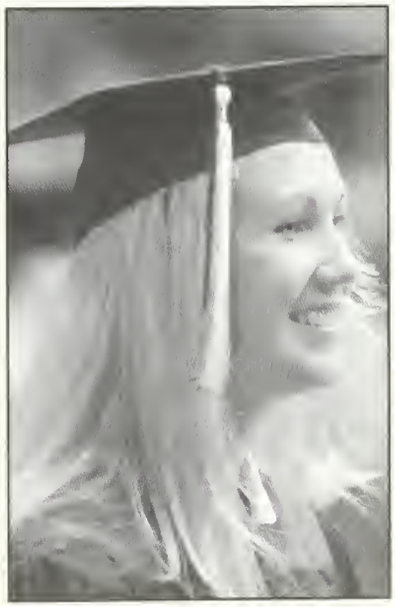

After four, five or even six years t SFA, students reach their goal of raduation. They throw up their caps and xes, look around at the place they called ome throughout their college career, nd remember all the good times. They eminisce about the fun times spent at Lumberjack Alley, the late nights spent finishing projects and the friends who were there through it all.

Students see the smiling faces of professors who are proud of their accomplishments. Graduation is the next step into the world of reality, excitement and business. SFA strives to prepare its students to handle all that life brings their way.

These graduates, like the ones who have come before them, will always remember their times at SFA as the best times of their lives.

(Above) Melanie Jephson, Associate Dean of Education, and other faculty line up in front of the graduates before the ceremony.

(Left) Graduate, Kellis Gilleland smiles with relief after she receives her diploma.

(Far Left) Kareem Harvey, Stephanie Wallace, William Hicks and Michelle Gray wait to receive their diplomas.

How do you inspire your athletes?

"I always try to challenge them. They are competitors and competive people thrive on challenge."
-Mike Santiago

Santiago says final goodbye to SFA

Former head football coach Mike Santiago said his final goodbyes to SFA in a press conference held in late November.

Santiago was released as the head coach after a six-year stay with the program. He started by thanking everyone who had helped him during his years at SFA, including the coaching staff, players, fans, the press and Dr. Tito Guerrero.

"I'm proud of the support they gave me," Santiago said of the coaching staff. "It's been six good years here at Stephen F. Austin. We've made some friends that will be with us for life."

Santiago was hired in December 1998 and took over a team that went 3-8 the year before. He led the team to an 8-3 finish and a share of the Southland Conference title in 1999, but failed to qualify for the NCAA I-AA playoffs.

"We didn't accomplish the things that we were dictated to finish," he said of the Lumberjacks never reaching the playoffs under his guidance. "I'm responsible for the highs and the lows. I'm very proud of the accomplishments we've made here."

Among those accomplishments are the Lumberjacks having the best turnaround in 1999, winning the only SLC Championship in SFA Football history, and having six straight winning seasons.

"We've worked very hard, as coaches, to accentuate the positives in this program," Santiago said. "I think this program is in great shape. We have nothing to be ashamed about at what we accomplished here at Stephen F. Austin. I make no excuses for anything that happened. We didn't meet all the expectations, but along the way had a great journey."

Santiago entered the final year of a two-year contract this season and his team was picked as one of the favorites to win the Southland Conference. However, SFA finished the year with a 6-5, 1-4 record, placing fifth in the SLC.

"I went into this season with all the confidence in the world," he said. "We got off to a great start. Then the injuries started, and it was tough to keep up. I'm proud of the players. They kept battling and they kept fighting."

After a national search, former Lumberjack assistant coach Robert McFarland was hired to lead SFA football next season.

"I think the foundation has been built," Santiago said. "I've enjoyed these six years. I'm a better coach than I was when I walked in here in 1999. Life is a learning experience. I think the future is bright. I'm looking forward to the journey."

What is your most memorable moment as a coach?

"My most memorable moments as a coach are the lifetime relationships you foster with your players. You may only coach them one or two years, but we want to be a part of their lives forever."
-Lee Ann Riley

Ladyjacks host annual academic shootout

The SFA Ladyjack Basketball team held its fourth annual Academic Shootout to raise money for its scholarship programs.

The shootout took place during the game against Nicholls State. Fans were asked to bid, starting at 50 cents per point, and flat donations were accepted.

The event is co-sponsored by the Ladyjack Hoop Group and the SFA Alumni Association.The money raised goes toward summer school scholarships for Ladyjack players and fifth-year students.

"This event was started in Spring 2001, and we collected more than $20,000," Dr. Jane Robertson, Academic Shootout chair and a retired SFA faculty member, said.

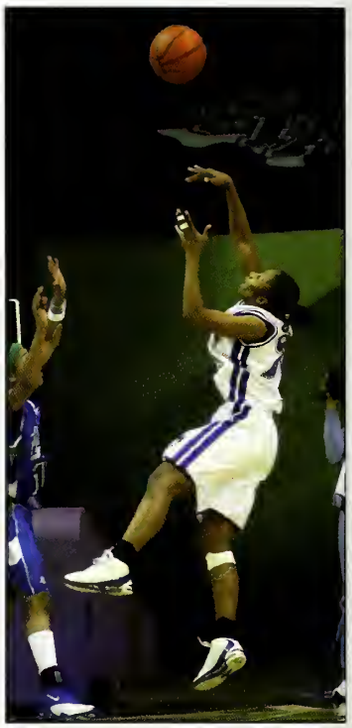

Last year the shootout raised nearly $14,000.

Rhonda Minton, SFA Alumni Association communications director, said,"It's one of those events that bridges athletics and academics. Sometimes it's hard for the ladies to carry a full class load, so summer school becomes an important avenue for them to keep on track with their education."

Lee Ann Riley, Ladyjack head coach, said, "Success academically in the classroom-not just in uniform on the court-is vital to us. The Ladyjack Academic Shootout provides a great way to ensure academic success by helping our ladies complete their education."

The average pledge is around $7 per point," Robertson said.

"I challenge them to be the best that they can be, and I constantly remind them that the only person standing in the way is themselves."
-Danny Kasper

Jacks nip rivals

The only way SFA can truly get back at Sam Houston for spoiling the Southland Conference Championship last year, is by actually winning a title themselves. And the Jacks took a step in that direction in front of 4,431 fans and a television audience, by beating the Bearkats 68-67 in a comeback thriller.

"The crowd really helped us win tonight," said SFA Head Coach Danny Kasper. "If I could give a most valuable player award tonight, it would be given to the fans."

Sam Houston was ahead by as much as 13 in a lackluster first half. Othello Alford carried the Kats with his stellar three-point shooting, draining five from behind the arch in the first half.

The Jacks(13-4, 4-2) came out in the second half and shut down Alford, and ended up with four players in double-digits points. Marcus Clark, Marshall sophomore, sealed the victory in the final second with two clutch free throws that put the Jacks up by four. The four-point difference was exactly what SFA needed when Bearkat Chris Jordan made a three-point shot at the buzzer.

Antonio Burks, Texarkana, Ark., senior, paced the SFA offense with 18 points, despite the heavy defensive attention Sam Houston was giving Burks. B.J. Banks, Gainesville senior, was the spark SFA needed, making five clutch steals, with almost all of them resulting in points for SFA. Banks ended up with 14 points.

SFA newcomer Rodrigo Segantim, Brazil junior, stepped up big for the Jacks, pulling down seven rebounds.

Ladyjacks win in overtime

The SFA Ladyjack Soccer team remained undefeated in Southland Conference, as SFA shutout Northwestern State, 1-0, in overtime. The Ladyjacks are now 8-3-1 (.708) overall and a perfect 5-0-0 in the league.

The game shaped up as a defensive struggle early as both teams could muster only 14 shots in the first half. But both goalkeepers were up to the challenge as the Ladyjack's Natascia Michalezki recorded two saves in the first half. Michalezki held the game scoreless as the Ladyjacks headed to their fourth overtime game of the season.

Senior Lauren Matkin stepped up to play the role of hero as she netted the game winner at the 103:32 mark of the game. The goal was Matkin's first of the season. Michalezki recorded four saves in the shutout win.

"We were fortunate to get a win today," said SFA head coach Nicole Nelson. "Northwestern State deserves a lot of credit; they came out and fought hard. I'm proud of the effort our girls had in the second half. We got the job done when we needed to."

How do you inspire your athletes?

"Every time we toe the line at the Southland Conference Championship, it is all about the pride."
-Lou Snelling

Success in opening meet

The SFA men's and women's cross country teams came out strong in their season opener at the Piney Woods Country Club.

In a non-scoring relay format, the Lumberjacks placed fifth among the overall top 10, and the Ladyjacks came out with three top-10 finishes. The women's team was led by All-Southland Conference selection Jessica Partin, Priddy senior, and Savannah Matzinger, Decatur sophomore, with a finishing time of 31:25:42. The duo placed third overall, followed by Emily Hufstedler, Graham senior, and Amber Bagwell, Pasadena sophomore, with a time of 31:28:42.

The Lumberjacks were led by Cody Clark, Merit sophomore, and Rodney Joseph, Decatur sophomore, who finished fourth with a time of 38:37:75. Crossing the finish line next for SFA were Clifton Tierney, Pipe Creek senior, and Matt Albertson, Tyler senior, with a time of 38:41:98.

"A goal of ours is to bring home a conference title, for both men and women," SFA Head Coach Lou Snelling said. "We want to improve our performance at the NCAA regional meet, and we always try to send as many people to the National Championships as possible."

Because of a successful performance by both teams, this opener served as a building block for the rest of the season.

"Outside of the competion itself, getting the job done on the day is always a focus for us," Snelling said.

What is your most memorable moment as a coach?

"My most memorable moment was in 1994 when we won our first SLC Championship. We were in the championship match against Sam Houston in Huntsville."
- Debbie Humphreys

Ladyjacks keep up winning streak

Brittany Burton, Livingston senior, and Deborah Kirkham, Houston senior, led SFA with 15 kills each as the Ladyjack Volleyball team outsted University of Texas Arlington, 3-0 (32-30, 30-22, 30-27), Nov. 5, 2004, at the William R. Johnson Coliseum.

The first game was a tough battle, but the Ladyjacks seemed in control from the start. Laura Cramer, Abilene sophomore, recorded 13 kills as the Ladyjacks took a 1-0 advantage and never really allowed UTA back in the match. Lauren Stevens, Schertz junior, came off the bench to provide an extra spark, recording 13 kills (.400 attack percentage).

The Ladyjacks' offense had a nearly unstoppable finish. SFA finished the night with a .312 attack percentage, led by Burton's .481 average.

SFA also played strong on defense, holding Lady Mavericks to a .219 attack percentage. Three Ladyjacks recorded double-figure digs led by Stephanie Figgers, Katy sophomore, who had 22 digs.

The Ladyjacks then went on to get 20 kills from Stevens, as SFA rallied to beat Sam Houston State, 3-1 (28-30, 30-22, 30-22) on Nov. 6, 2004. The Bearkats jumped out to a 1-0 lead behind some solid offense. SHSU recorded a .459 attack percentage in the first game to win by two points. The Bearkats' Chrissy Engle recorded eight kills in the first game to lead her squad.

But SFA didn't allow SHSU to hold the momentum for very long. The Ladyjacks fought back to tie the match at one. Burton added 15 kills (.353 attack percentage) and six blocks to help tie the match at one, sending the game into halftime.

SFA took its first lead of the game, winning game three, 30-24. Traci Rohde, Norman, Okla., freshman, recorded 13 kills and three blocks, while Kirkham finished the night with seven kills.

The Ladyjacks fell behind, 4-0, in game three but battled back and eventually reclaimed the advantage. Figgers and Kirkham led a solid defensive perfomance by SFA as both players recorded 19 digs. JJ Jones, Allen freshman, led all SFA players with 61 assists.

How do you inspire your athletes?

"I try and inspire my athletes by allowing them to feel like they are always going to be successful. We put them in situations that will nearly always result in success."
-Jennifer Poulsen

Promising new team

With a great recruiting class and many top performers returning, the SFA Ladyjack Softball team has high expectations this season.

"Ideally, we want to go to the conference tournament this year (the Ladyjacks haven't made it the last two seasons)," Jennifer Poulsen, head SFA softball coach, said. "It would also be great to finish with a winning record."

Last year's squad finished with an overall mark of 23-27 and a 10-15 mark in Southland Conference play.

Some of the new additions to the team are expected to play a significant role in the success of the Ladyjacks this year.

Julie Morse, a junior transfer from San Jacinto Junior College, and Caitlin Morrison, a freshman pitcher from Italy, should see a lot of playing time this year.

"Morse is a power hitter that will add lots of depth to the lineup," Poulsen said. "Morrison is playing really great right now and will probably be the number three pitcher in our rotation. We had a great recruiting class this year."

The recruiting class should get great leadership from many key contributors returning from last year's team.

These returnees include Carrie Woydziak, a junior outfielder from Round Rock, Tara Hersey, a junior infielder from Santa Fe, and Crystal Dahlquist, a sophomore infielder from Brenham.

Woydziak was a First Team All-Southland Conference selection last year. She led the Ladyjacks with a .403 batting average.

"Hersey has been hitting the ball great lately, and we look for her to have a breakout this year," Poulsen said. "Dahlquist can do it all. She can hit for power, she has great speed and she plays great defense."

The Ladyjacks may not be the favorites to win the Southland Conference title, but they may just be the surprise team this year.

"Everybody is looking great right now," Poulsen said. " They are swinging the bats well and making solid improvements in their game. If we can keep everybody healthy we should have a great season."

How do you inspire your athletes?

"The best way for me to inspire my athletes is by setting an example for hard work and determintation to sports." -Phil Olson

SFA track teams see success

The Lumberjack Track and Field team had success at the Southland Conference Indoor Track and Field Championships in Houston.

The team received 21 All-Southland Conference Athletes, five championships and set six school records.

"I was amazed by their performance. It was a superlative meet," said track and field Head Coach Phil Olson.

At the end of the first day of the competition, the Lumberjacks led the men's division with 41 points, and the Ladyjacks were second in the women's division with 42.67 points. The competition wrapped up on Saturday with the men and women receiving second place with 95 and 95.66 points respectively.

"It was terrific. I've never seen that kind of performance," said Olson.

Ana Rodriguez, Dallas junior, set one of the school records over the weekend in the 5,000-meters race with a time of 17:30.86, originally set by Jana Johnson in 1997.

Among the other school records set was in the 60-meter hurdles by Leah Matthews, Fort Worth freshman, with a time of 8.63 placing her second in the event, a hundredth of a second behind her was teammate Jocelyn Stevens, Schertz junior. Matthews also placed fourth in the 60-meter dash with a time of 7.72.

In the 400-meter dash Stevina Wyatt, Lancaster sophomore, finished third with a time of 56.42.

The Lumberjacks' distance medley relay team, Alex Beckworth, DeSoto senior; Justin Meier, Lorena senior; Mike Thompson, Prince George, British Columbia senior; and Chance Edward, San Saba sophomore - set a school record with a time of 10:08.65. The four combined for a total of 13 All-Southland Conference Athlete awards.

Paul Todd, Marshall senior, earned his fourth individual-league title in the high jump competition, clearing a height of 6-9 1/2. Todd is a four-time SLC individual-league title champion, five-time.

All Southland Conference athlete and a two-time national qualifier, DeVaughn Rettig, Henderson senior, set another school record in the triple jump, recording a mark of 50-9 1/4. Rettig was part of the Lumberjacks' distance medley relay team that finished third at last year's Southland Conference Indoor Championships.

"These meets usually have many highs and lows, but there weren't many lows this weekend," Olson said. "We had a lot of highs."

How do you inspire your athletes?

"I tell them, tennis is like life, you get out of it as much as you put into it."
-Bret Arrant

Ladyjack tennis player honored by SLC

Southland Conference honored an SFA Ladyjack tennis player for outstanding achievements in academics.

Melissa Bass, Alrington senior, was named Academic All-Southland Conference in May 2004. Bass was one of the two tennis players to finish the semester with a 4.0 GPA.

"I was honored and excited for being awarded for all my hard work," Bass said. "I have learned to manage my time well. You learn to use your free time to do something productive that needs to be done.

"I work hard to make my family and myself proud. They have always supported and inspired me in everything I do."

Bass is currently working toward a finance degree while practicing tennis at least 12 hours a week.

The biggest accomplishment in her tennis career is obtaining a full scholarship to play for SFA, Bass said. Her goal for the upcoming season is to make it to the conference tournament in the spring.

Bass has been playing tennis for more than 16 years. She has played both doubles and singles but said she preferred playing doubles.

"It's a lot more fun to me," she said. "There is a lot more strategy involved, and you always have your partner there to back you up. I also think I am a stronger doubles player than singles."

How do you inspire your athletes?

"I try to challenge each player to play to their highest level as an individual. If they can do that, our goals as a team will be reached. Their inspiration lies in the desire to be the best they can be at whatever they do."
-Mike Hopson

SFA Golf finishes second

The Lumberjack Golf team placed three members among the top-20 finishers at the Mean Green Classic, hosted by the Universtity of Texas, to finish in a tie for second at the first event of the fall season. SFA finished tied with host team North Texas with a three- round total of 877, 10 shots back of tournament champions, the University of Houston.

The Cougars shot a final round of 286 to move from third place to take the team crown. North Texas entered the final 18 holes of play with a five-shot lead over the Jacks but shot a 303 as the Jacks climbed even with them with a final round of 298.

Brian Grossman followed rounds of 71-71 with a final round 76 to finish in a tie for third. Chad Spencer remained steady in his first collegiate tournament, firing a final round 74 to finish along in seventh place with a three-round total of 72-72-74, 218. Trevor Sauntry also bounced back with a 71 to claim a top-20 finish, moving into a tie for 19 with a three-round total of 222. Jeremy Ice finished with a 77 and James McLeod shot a final round 78 for SFA.

Brian Grossman will return to Bayou DeSiard Country Club in Monroe, La., to defend the individual title he captured a year ago with rounds of 72-70-74. SFA finished third at the tournament last year.

Rettig Shines at Olympic

For DeVaughn Rettig, Henderson senior, the summer of 2004 was filled with plenty of new experiences. Not only did he get to ride on an airplane for the first time, but he was also able to showcase his talents at the 2004 U.S. Olympic Trials, held mid-July in Sacramento, Calif.

Rettig, a member of the SFA Track and Field team, qualified for the trials in the triple jump with a mark of 52-6.75 at the SLC Outdoor Championship.

The trials consisted of the top 24 athletes in every event. Rettig went into the competition tied for 23rd in the nation and recorded a mark of 49-5.50 to finish 10th in his flight and 21st overall.

"It felt great," Rettig said of competing in the trials. "I've competed on three different levels now, but at the trials it's more professional. Everyone's more serious."

This four-time All-SLC athlete finished third in the region and placed 20th at the NCAA Championships in June. He helped guide his fellow Lumberjacks to an SLC runner-up finish in 2004 and is the school record holder in the indoor triple jump with a mark of 50-9.25.

With a mark of 48-6.00, he recorded an eighth place finish in the triple jump at the 2002 SLC outdoor meet. He has also been a contributor to the success of the Lumberjack relay teams, earning All-SLC honors for the distance medley team that finished third at the 2003 SLC Indoor Championships.

Rettig has a personal best of 23-9.50 in the long jump and recorded a wind-aided mark of 53-.075 in the triple jump during the 2004 season.

With only indoor eligibility remaining, Rettig already has his eyes set on his goal for the 2005 season.

"My main goals are to get the SLC indoor triple jump record," Rettig said. "I would have to jump about 55 and keep doing what I've been doing."

Farmer's Fight

Derek Farmer has taken Lumberjack football by storm. Since his arrival at SFA in spring 2004, the Tyler senior has made quite an impression—in fact, one big enough to be named the Southland Conference Offensive Player of the Week after helping the Lumberjacks to a 24-17 win over Northern Arizona on Sept. 11, 2004.

The 6'0 running back had 25 carries in the NAU game for 144 yards and 2 scores. One was a 5-yard run to give SFA a 10-7 lead in the first half, and the second came from 12 yards out in overtime.

As a transfer from Texas A&M, Farmer feels he has adjusted well to the SFA football program, thanks to his teammates and coaches.

"It's been easy to adjust," Farmer said. "My teammates are real nice people, andthey look out for each other."

Farmer led the Southland Conference and was ninth in the nation with a 138 yards per game rushing average after the first two games of 2004.

"It feels real good," Farmer said of leading the SLC. "I'd like to give thanks to my teammates for allowing me to accomplish something like that."

As a junior at Texas A&M, Farmer appeared in all 12 games for the Aggies, finishing third on his team in rushing yardage with 340 yards on 82 carries. He also had two rushing touchdowns and a season long carry of 62 yards.

His expectations for the SFA football team are also quite high, and he aims for the Lumberjacks to win the conference title, go into the playoffs, and play for a national championship. "The biggest challenges are for everybody to stay healthy and to keep their grades up," Farmer said.

However, these goals were put on hold after Farmer suffered a bruised hip in the Northern Iowa game on Sept. 18. He carried the ball 21 times for 71 yards and one touchdown during the game but was forced to sit out for the remainder of the season.

Before Farmer was sidelined, he was one of 32 players to be added to the Payton Award Watch List, which keeps track of the quest for the 18th Walter Payton Award, presented to the top player in I-AA football.

The Lumberjacks went 4-0 with Farmer, and 2-5 once he was sidelined with an injury.

Willie unites Teke brotherhood

Brotherhood is the foundation of every fraternity, and the men of Tau Kappa Epsilon fraternity showed the strength of their brotherhood while working to help out at the Willie Nelson concert during Homecoming weekend.

Legendary country music artist Willie Nelson is an honorary member of the SFA chapter of Tau Kappa Epsilon. Willie was inducted into the chapter in the fall of 1999 on his tour bus at the TKE land. He was assigned an official scroll member number, #458.

When Cory McConnell, TKE vice president and Arlington junior, received a tip from a former chapter president that Willie Nelson was scheduled to perform in concert during SFA's Homecoming, he immediately contacted the SFA Alumni Association, which was producing the concert to raise scholarship funds.

The event raised money for the Paul Buskirk Scholarship, which honors Nelson's longtime friend and acclaimed musician who lived in Nacogdoches. The scholarship is funded from royalties on songs Buskirk purchased from Nelson and from albums he produced with Nelson.

McConnell spoke with Communication Director Rhonda Minton to offer the chapter's help for the concert and to see how they could get involved.

Over the next few months, McConnell, Minton and TKE president and Arlington junior Brad Wilson kept in close contact to finalize the details of the men's responsibilities.

About 30 TKEs volunteered to help out at the concert as an act of brotherhood. The men worked a total of about 20 hours each as crew and security. Their efforts saved the Alumni Association about $600 in labor, resulting in a greater amount for the scholarship.

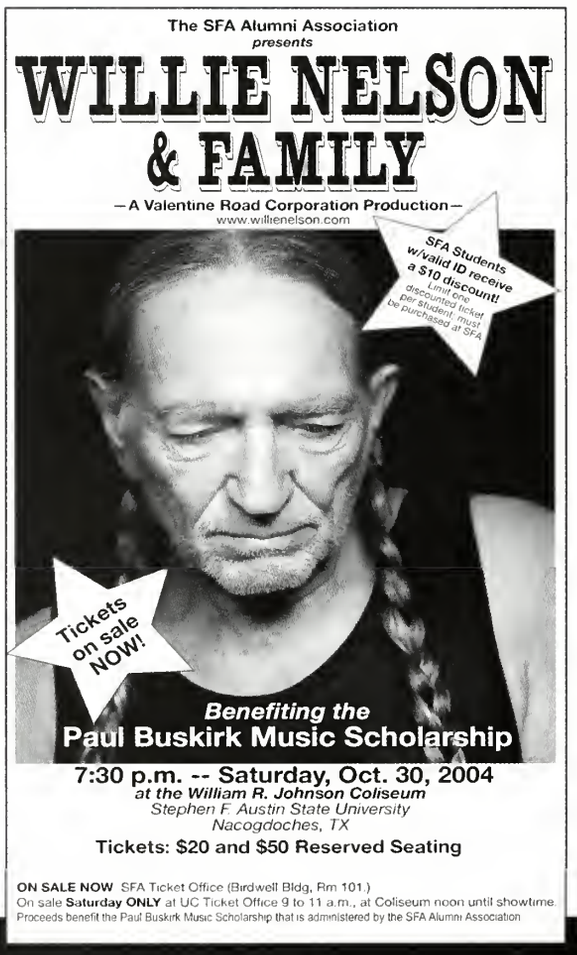

The men arrived on Friday to set up the stage and returned on Saturday to help Willie's lighting and sound crews unload and set up equipment. After set-up, the men took a break before returning to work as security during the show. They also helped tear down the equipment and stage after the event was over.

"We had a great time setting up for the concert. To see Willie walk out onto the stage in a TKE ball cap was worth all the hard work," said Erichson White, TKE secretary and Dallas sophomore.

The men got a special treat afterwards when Wilson and McConnell were invited onto Willie's tour bus to visit with him before he left town.

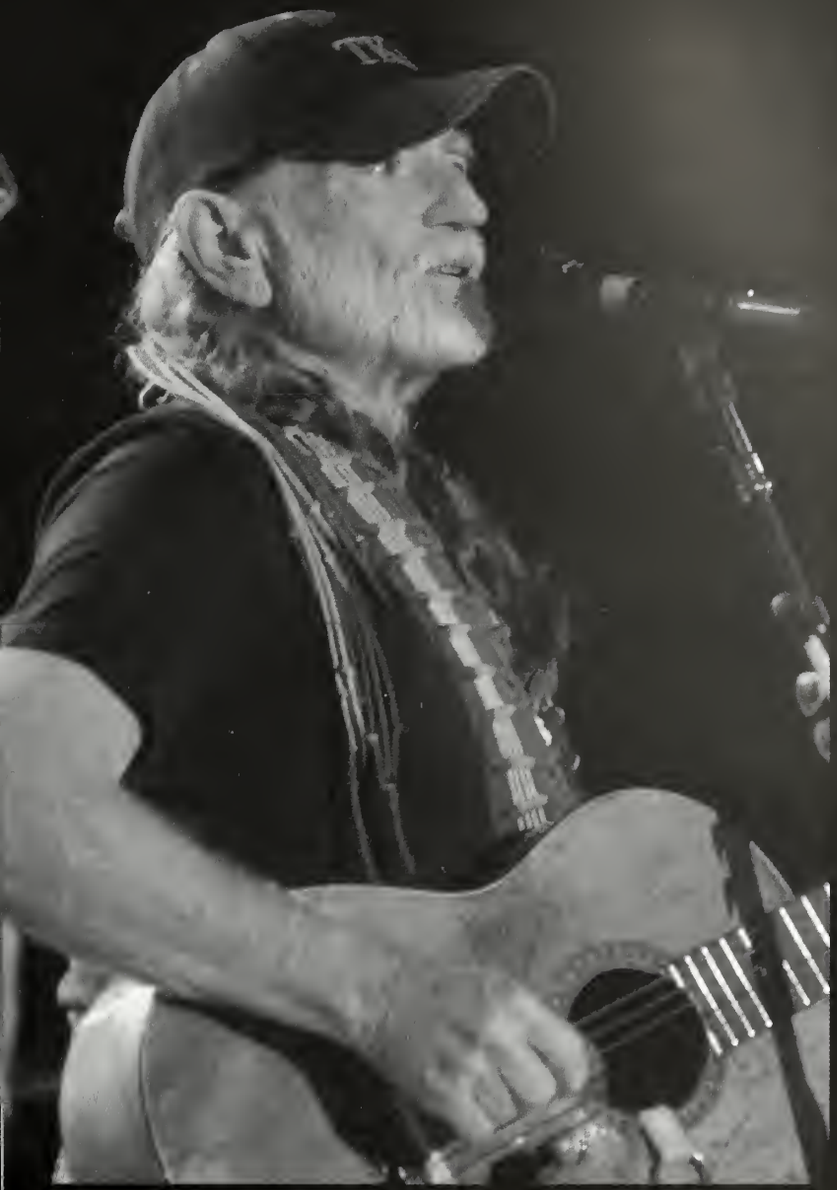

McConell summed up the experience best: "Brotherhood is an ideal in TKE and in every other Greek chapter at SFA, but it was nice that we were given the chance to show the campus that our bond isn't just something we talk about but practice, as well."

Bonfire Tradition

Each fall, on the Friday night before SFA's annual Homecoming football game, students gather on campus to march to the Intramural Fields for the Homecoming Bonfire, one of the University's most cherished traditions.

It is a tradition that owes much to Alpha Phi Omega, the service fraternity that has been building the bonfire for more than 25 years. Actual work on the project begins as early as August, when members solicit local businesses to donate the pallets for the fire. Members of the organization begin on Monday building the towering stack of wooden pallets topped by a traditional outhouse painted with the fraternity's letters.

After an entire week of work, APO gets to light the huge bonfire and join the student body and spectators from the community who gather to watch it burn. After the fire is ignited, APO members form a fellowship circle and sing the fraternity's traditional Toast Song.

The SFA Homecoming Bonfire is one of Alpha Phi Omega's largest service projects. Members say Homecoming is not only one of their favorite weeks, but the bonfire project is fun and bring them closer together as brothers.

MR. & MISS SFA

stin Sawyers and Katie Freelove represented the University as Mr. and Miss SFA for 2004. *Photo by Hardy eredith.*

Two SFA seniors were chosen to represent the student body this year as Mr. and Miss SFA.

The students were selected based on their scholarship, participation and leadership in academic and co-curricular activities, citizenship and service and loyalty to the University. Selections were made by a committee of faculty, staff and students.

Katie Freelove, Miss SFA, is a member of Delta Zeta sorority and active in organizations including the Debate Team, SGA, Omicron Delta Kappa leadership honorary, Pi Kappa Delta speech fraternity and the Student Activities Association. She served as president of the SFA Panhellenic Council and was senior duchess on the 2004 Homecoming court. The Katy senior is a radio/TV major.

Justin Sawyers, Mr. SFA, was involved in a wide range of activities including RHA, The Pine Log, Student Foundation Association and ODK. He served as president of Beta Upsilon Chi fraternity. Justin is from Houston.

Both list an impressive array of activities and awards and share honors including being chosen Orientation Leaders and Jack Camp counselors, selection to Order of Omega and Who's Who.

The Mr. SFA Award was established in honor of the late Stan McKewen, a 1934 SFA graduate. The Miss SFA Award was established in honor of Arnodean Covin, a 1943 and 1972 SFA graduate. Covin, who lives in Kilgore, was named Miss SFA in 1940, 1941 and 1942.

Mindy Arendt

Working on this book was so much fun! The staff is great and lots of laughs. I would like to thank Jamie Fussell and Amanda for all their help and to Kellie, Jamie, Morgan, Sarah and Jenna for letting me take pictures of them! Thank you Pat and Mary for putting up with me throughout the year. I hope everyone enjoys this book for years to come! Dueces!

Brittany Hahn

I am really excited that I was able to be an editor for this amazing yearbook during my senior year. I want to say thanks to Amanda for all your hard work, determination and wonderful ideas to make this yearbook come together. To Chris Bouldin for all your hard work and very talented pictures that you took for me this year. Thank you Mary and Pat for being like second moms to me for the past three years. Last but not least, thanks to my fiance for putting up with my long hours at the office designing yearbook pages. It's been great y'all , but all good things come to an end!

Kathryn Mattison

I am really excited about this yearbook. I really want to thank everyone who has contributed and worked so hard on all the pages and layouts. I especially want to thank Amanda for always helping me with the Greek section. Everyone on staff did an amazing job, and the yearbook looks fantastic!

Arlene Morales

I want to say to thanks to Mary for helping me out and to Amanda for getting the faculty pictures from Hardy! This is definitely going to be a great book!

Michelle Vinklarek

I want to thank Pat for being such a great inspiration! I don't know what I would do without my SFA mom. Thank you Mary for answering all my crazy questions and always being so helpful. And Amanda, what can I say; I didn't know I could so much fun at work. From planning our dream date with Mr. Roberto to talking about the dumbest stuff ever, it's been a blast! Thanks for all of your help!

last words

I WASN'T SUPPOSED TO COME TO SFA. You see, in my family, we have this 24th gene that makes us all Aggies. By the laws of nature, I should have spent my college years as a number in College Station, Texas. But after a few misguided decisions, a couple mistakes and some pretty hateful e-mails from my older brother at A&M, I wound up here. After my first semester I decided to transfer—SFA was too Greek for me and too much like the place I had come from. But for some reason I couldn't bring myself to write my transfer letter. It wasn't writer's block that kept the words from coming, but something much deeper. It was my heart. No matter how much I tried to criticize this place, it was where my heart was. Without me realizing it, I had come to love Nacogdoches and SFA. Sure, I envied my friends at larger universities and in larger towns, but this was the place for me. Instead of just a degree to hang on my wall after graduation, I will have this yearbook—a representation of myself and my legacy. How many of my friends will be able to say that? Sure, I will probably make the least amount of money—journalism and PR jobs don't pay hardly what they should—but above all, I will be *happy* because I followed my dream. I owe my success to SFA for giving me the opportunities that no other university could have come close to offering—a chance to be *me*.

Now, to my staff...the fabulous five! These women are the most hardworking, amazing people I have ever met. When I found out that we had only one semester (108 days to exact) to complete this book, I almost passed out. This wasn't my first rodeo, but 108 days? That's crazy! If it had not been for this staff, this yearbook would be nothing. I thank each of you for every second you spent thinking about this book.

Mindy- I think you set a world record for finishing pages! I am so impressed with everything—your pages, your pictures and your ideas. Thank you so much for all of your hard work. I loved hanging out in the office with you and listening to your crazy stories! I still owe you a TCBY Parfait! Mmm, spontaneous ice cream is always a good thing!

Arlene- The campus faculty should be forever endowed to you for the hard work you put into making sure they all got covered. I am sure you had dreams about File>Place>Fitting>Fit Content Proportionally. And will we ever know the answer to, "Who is Kelly Gorville?" Thanks you for your dedication.

Kathryn- I am very upset that the "Philos" and the "Callies" did not buy pages this year! You know, they are the most reputable Greeks on campus! Thank you for all of your work on the Greeks section. I am sorry that the majority of the groups procrastinated until the very last second to bring us pictures; I know that was stressful! But I really love how everything turned out. PS- You do *not* look like Kimball!

Brittany- My Organization-Nazi! It was unbelievable how quickly you sold your section. School had barely begun, and we were already searching for ways to give you more pages! I cannot say thank you enough. I loved our hours of gossip and our talks about "the crazies." Also, thanks for the 411 on the AIDS vaccine.

Michelle- Slam Duck! That was the best caption I have ever read! On a serious note, you did such an amazing job on the sports section. Even when we thought there were no pictures, somehow you found some. Thanks for the awesome job! Hanging out in the office was so much fun. Roberto and buttcracks will forever bring laughter to my life. Also, do you think you'll be able to get me a job at Cluck's House of Chicken? HA HA!

Bouldin- THANK YOU times a trillion! I really appreciate you taking pictures for us this year. You truly are a talented photographer. Despite the fact that you left the homecoming game early and missed "the fight"—aka—the *best* photo-op of a lifetime (kidding), I think I can find it in my heart to forgive you.

Mary and Pat- I cannot express how thankful I am that you both gave me the opportunity to be yearbook editor without any prior staff experience. This has been the greatest experience of my college career, and put me one step closer to fulfilling my dream of working for Taylor Publishing. I came to SFA with the intentions of one day being your yearbook editor, but I never could have imagined it would be so soon. I appreciate all the help and advice you both gave me on pages and editors. My time here with Student Publications is far from being over, and I look forward to more crazy times in the office!

Hardy Meredith- Without you, this book would have quite a few empty pages! I appreciate you allowing us to use your photography in this book. I enjoyed getting to know you and look forward to working with you in the future!

I appreicate everyone who had an influence on this book. Thank you to all of the contributing writers. Thank you Amber Jenkins and Jessica Henley for your avid interest. I just wish we could have had more for the both of you to do!

Thank you Mom and Dad for always loving and believing in me despite my occasional bad jugdment. I hope that I have made you both proud. So...can I have a new car now? (Just kidding!) Thank you to my brothers, Matt and Blake, for always making me laugh. Blake, I enjoyed the drunk calls. Yeah! Thank you to the greatest teacher at Magnolia High School, Gail Anders, for your unfailing love and support! And to David, my rock. Thanks for loving me for *me*, and for always letting me vent! You are amazing! What? Goulet!

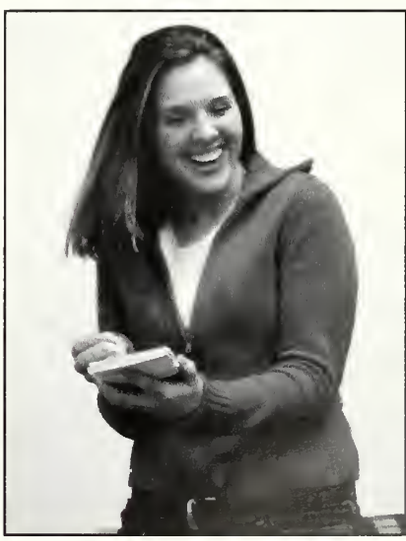

I also want to thank every person who purchased this book (by choice or not). This book was created for you. Please take great pride in it. When the day comes that your children ask what you were like in college, and you begin panicking because the only pictures you have of these days are of wild parties and beer bongs, just remember your yearbook!

And I'm glad I didn't go to A&M. You couldn't pay me enough to edit their 752-page yearbook!

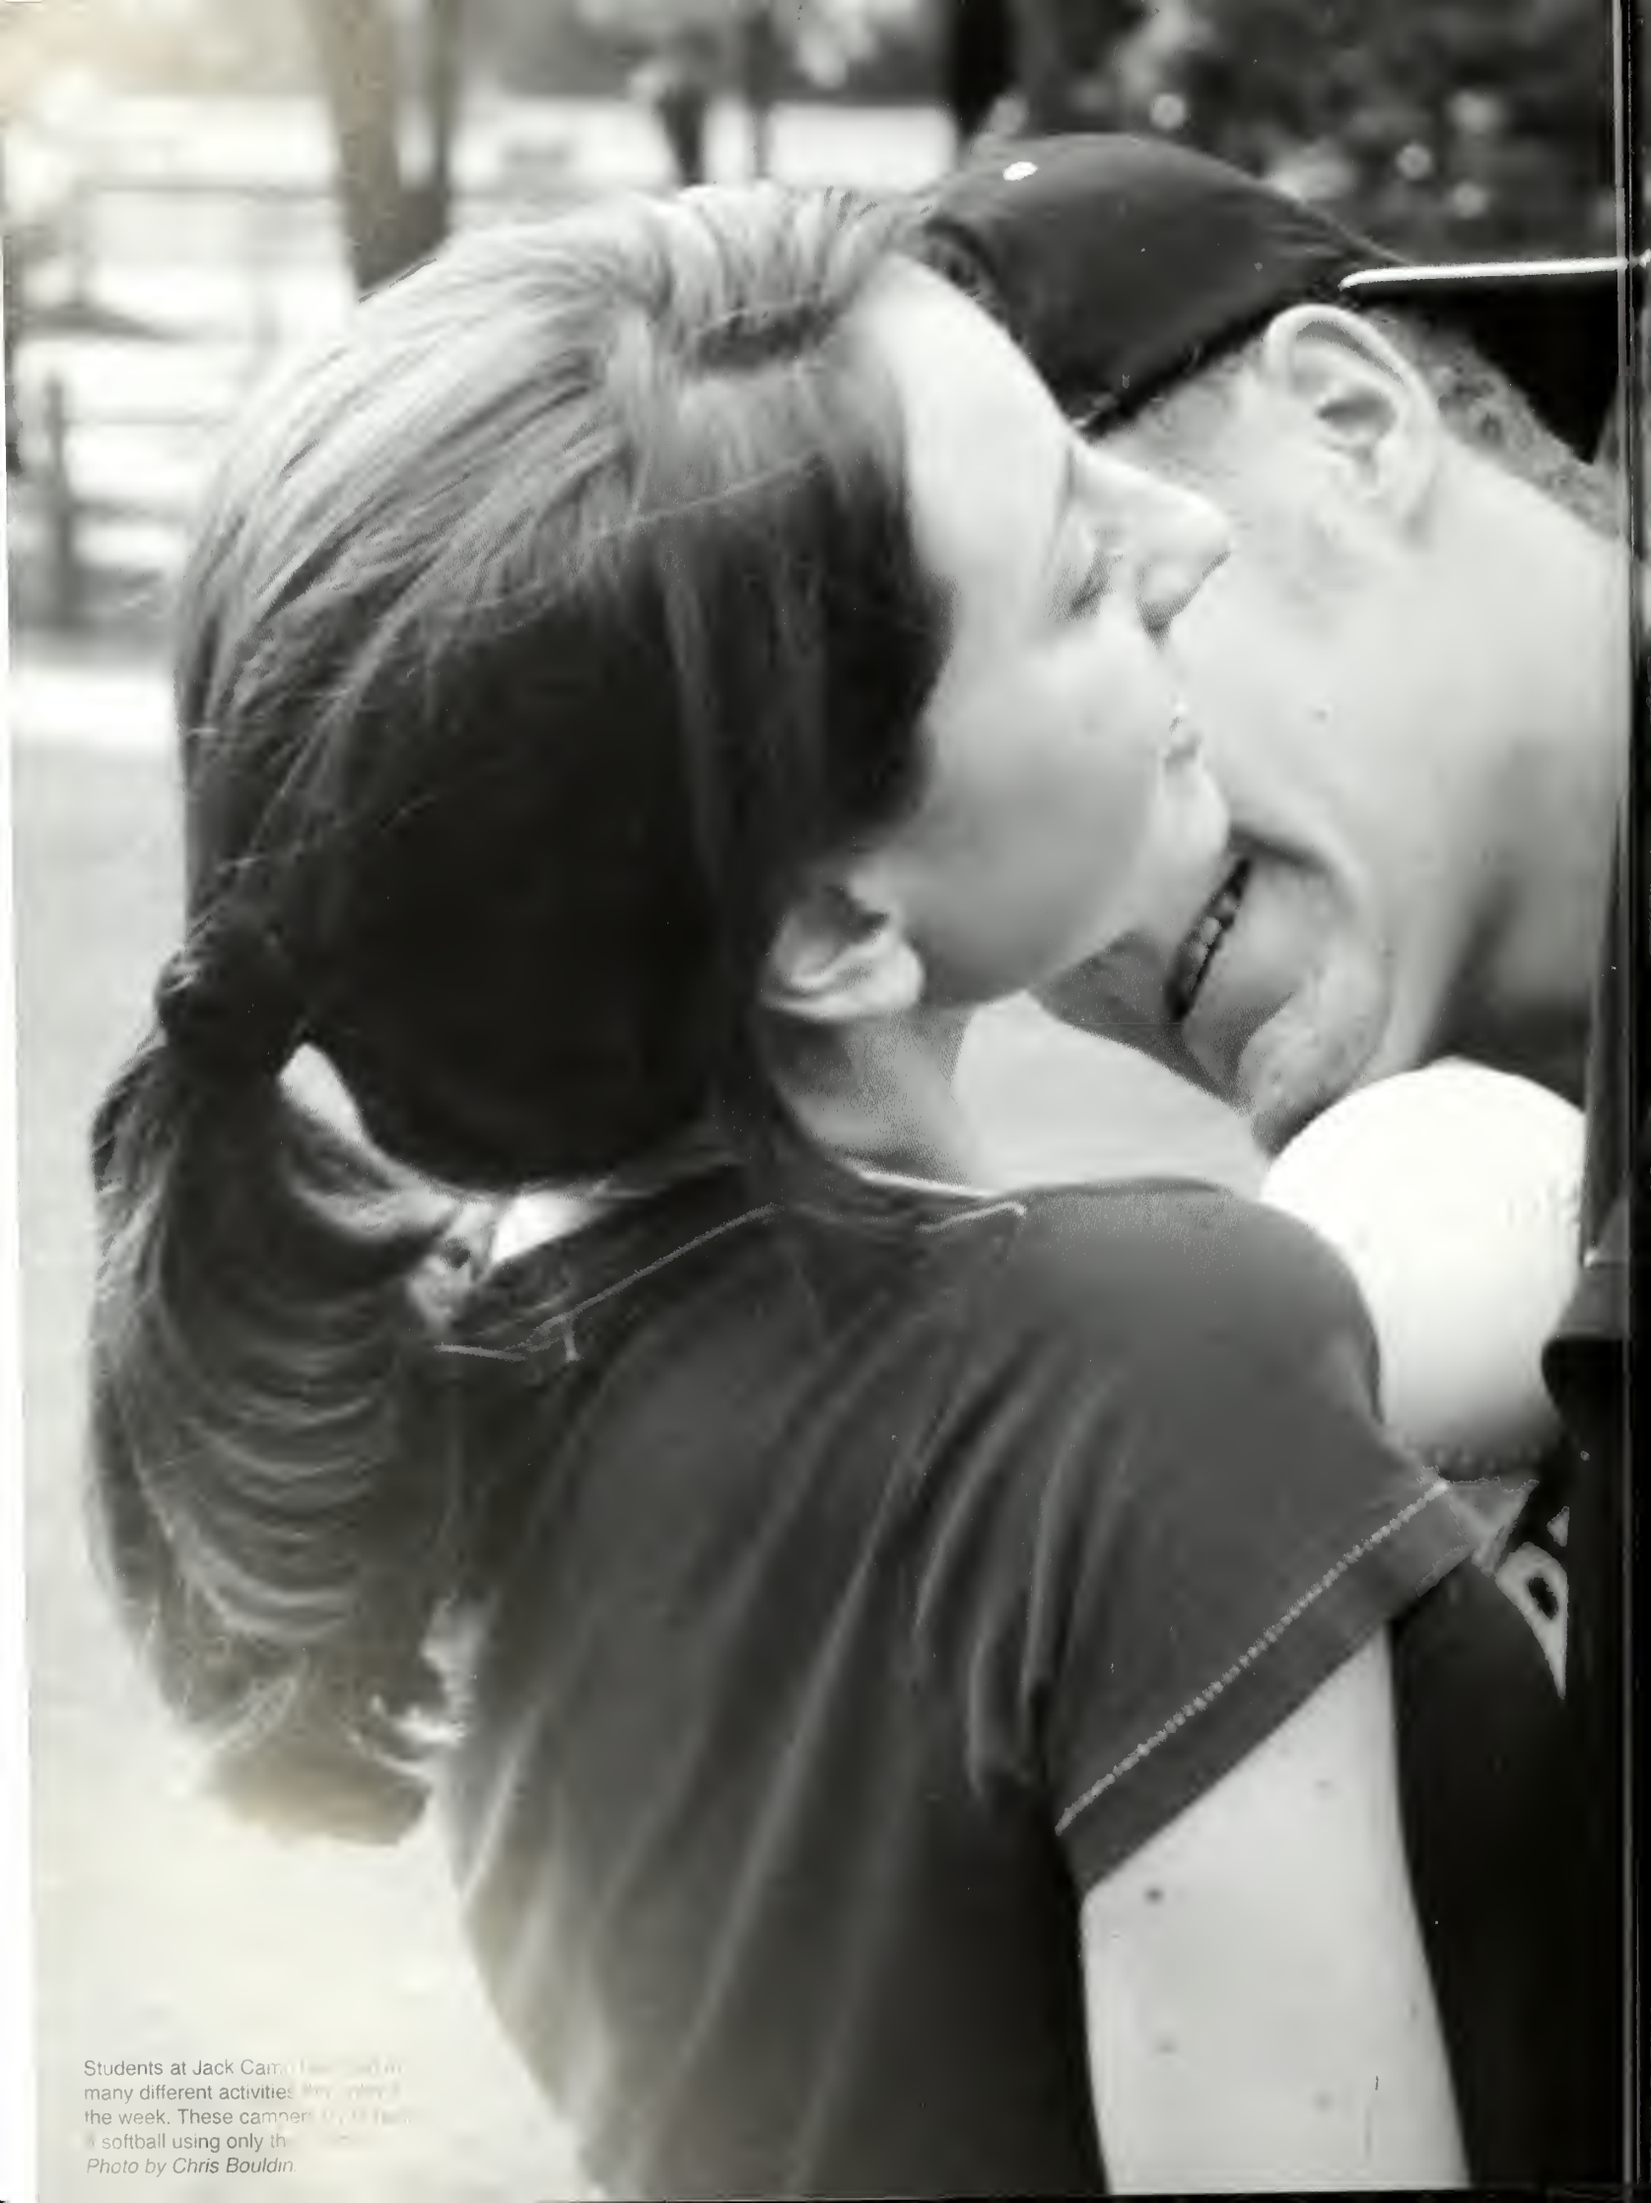

Axe 'em and God Bless,
Amanda Reynolds

universal university

Dr. Dan Bruton, physics and astronomy professor, stands next to a telescope in the university's observatory. Tours of the observatory are given throughout the semester for the students and the community. *Photo by Chris Bouldin.*

Between the orbits of Mars and Jupiter, 260 million miles from Earth, lies an approximately three-mile-wide minor planet that orbits the sun, discovered by SFA astronomers. Earlier this year, the astronomers submitted the name "Sfasu" (pronounced "Sfä-sü") to the International Committee for Small-Body Nomenclature of the International Astronomical Union, and the name was approved last week.

The planet was discovered near the end of an astronomy105 night lab in October 1999 at the SFA observatory. Graduate student Michael Johnson was wrapping up the lab while physics and astronomy professor Dr. Dan Bruton took some digital images of the sky with an 18" diameter telescope. Then, something unusual happened.

"We were observing a known asteroid that night, and then another one drifted into our field of view," Bruton said. "We image asteroids by taking 4 minute exposures of a patch of sky with a cooled digital camera. We take 5 to 10 images and then make a short animation using those images. If anything moves in the animation then we know that it is something that is close to us and within our solar system."

After some more observations the next night, the results were submitted to the Minor Planet Center at the Smithsonian Astrophysical Observatory in Cambridge, Mass., which Bruton said is the world authority for comet and asteroid discoveries. On October 17, two nights after the initial observations, the center informed the astronomers that they had discovered a new minor planet, which can also be called an asteroid. It was called 1999 TJ17 until an official name could be assigned.

After that, Bruton said there was much more work to be done.

"The Minor Planet Center requires that astronomers track a minor planet until the Earth passes by it three times before it can be named," Bruton said. "This was several years of work."

Bruton said that it Sfasu has an elliptical orbit and its three-mile width is the size of a city and typical for asteroids.

"There is no chance that Sfasu will impact the Earth or any other solar system object," Bruton said.

Bruton said it takes Sfasu 3.68 years to orbit the sun.

"This means that one Sfasu year is 3.68 Earth years," Bruton said.

Bruton said the astronomers first proposed the name "Sfa" after Stephen F. Austin, the person whom the university was named after. However, that name was rejected.

"The international committee did not accept this name due to the politics of Stephen. F. Austin the man," Bruton said. "We approached the committee again and explained that we wanted to name it after the university. We proposed the name "Sfasu" after the university, and the committee approved it."

Bruton said the work to discover Sfasu was funded by an SFA faculty grant.

"Naming an asteroid after the university is our way of saying thank you to the university for supporting scientific research," Bruton said.

Northern Iowa road trip

Students and faculty take part in a 38-hour bus ride to support the Jacks.

"This trip goes down in history as one of the best, most random and most fun road trips of my life," Brooke Jasa, Fort Worth sophomore said.

The trip was made possible thanks to an anonymous benefactor, who paid for a bus to take students and faculty to the SFA vs. Northern Iowa football game. The bus left at 6 p.m. Friday, September 17, from the commuter parking lot across from William R. Johnson Coliseum and returned Sunday afternoon. About 30 students and faculty took part in the trip.

The drive to Waterloo, Iowa, took 19 hours one way.

"We drove all night, stopped for breakfast, got to the stadium a few hours before the game, found a bar where the locals were hanging out, went to the game, got right back on the bus, stopped for dinner, drove through the night again, stopped for brunch and then made the last leg of the trip, getting back around 3:30 p.m. We went nonstop. It was a trip I will never forget," Jasa said.

"The game was awesome; by far the best SFA game I have ever been to," Caleb Fisher, Wylie sophomore, said. "We stood up the entire game and screamed at the top of our lungs."

To keep themselves busy during the 38-hour bus ride, they watched movies and played a lot of card games. UNO was one of the favorites.

"The whole trip was pretty awesome; it was as good as a birthday cake. Winning the football game was the icing and winning the UNO game on the bus during the ride home was the sprinkles," Fisher said.

"I would definitely do this again. Heck, this is what college is all about; random, crazy road trips," Ryan Anthony, Oak Ridge junior, said.

colophon

The 80th edition of the *Stone Fort* is the creation of an all-student staff at Stephen F. Austin State University, Nacogdoches, Texas. It was printed by Taylor Publishing Company in Dallas, Texas. The sales representative was Lee Briggs, and the account executive was Tami McConnell. 2000 copies were printed. The price of the book was $48.

COPY AND DESIGN

All copy was written by *Stone Fort* and *The Pine Log* staff members. End sheets, opening, division, scholars and closing pages were designed by Amanda Reynolds. All other pages were designed by their respective editors.

PHOTOGRAPHY

Stone Fort and *The Pine Log* photographers took all photos unless otherwise noted. Auxiliary Services provided all 11,000-plus Scholars photos. Photo credits accompany all pictures in the book. We would like to especially thank Public Affairs photographer Hardy Meredith for supplying us with Academia photos as well as other candid photos throughout the book.

TYPOGRAPHY

Cochin Medium 11-point was used for all body copy and folios. Helvetica Medium 8-point was used for all captions. Several variations and sizes of Franklin were used in all headlines. Johann Sparkling ITC was used as a specialty font on division pages and throughout the book.

PRINTING

All pages were printed on 100# dull enamel paper. Pages 1-13 and 65-109 were printed using color processing. All other pages were printed using only black-ink processing. All color photos were spot varnished.

COVER

The cover was designed by Amanda Reynolds and produced using Matador 9 Grey special material with a clear varnish application. The type on the cover and spine is Cochin Medium and Johann Sparkling ITC.

PRODUCTION, CONTACT & COPY

The 2005 *Stone Fort* was produced on Macintosh computers using Adobe InDesign 2.0.1, Adobe Photoshop 7.0 and Microsoft Word. The *Stone Fort* has been the official yearbook of Stephen F. Austin State University for 80 years. Editorial content does not reflect the views of the University.

Address inquiries to Editor in Chief, Stone Fort Yearbook Box 13049- SFA Station, Nacogdoches, TX 75962.
